\$10K MAXIMUM

## Why endowment?

Endowment builds long-term financial stability while simultaneously meeting short-term needs. It is designed to provide a perpetual stream of income by annually distributing a portion of the growth of invested funds while preserving and growing the principal.

Imagine placing \$40,000 into your endowment today. With a \$10,000 match from the Foundation, that \$50,000 will distribute \$2,250 its first year. In 25 years, your endowment will:

- Double its annual distribution from \$2,250 to \$4,570
- Distribute a cumulative total of \$82,000 (\$32K above original contribution)
- More than double the principal from \$50,000 to \$101,600
- Continue growing and providing income, indefinitely

Projections are net of fees. Assumes 7.5% growth and 4.5% annual distribution. Matching funds available on a first-come first-served basis. Funds must be deposited to qualify for the match; pledges for future gifts are not allowed. Available to any Oklahoma Baptist Church.
